DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12/1/05 has been entered.
2. Claims 1-19 are currently pending in this application. Of these claims, claims 1-10 have been allowed. Claims 11-19 are new.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 11-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11 is narrative and contains a description of the invention in such language that the scope of the invention cannot be ascertained. More specifically and only by way of example note: claim 11 appears to refer to "sheets" and "recording material" as two

distinct entities. The recitations including the language "is gave" are grammatically incorrect. The last line of claim 11 recites "said engine control part" where no such engine is previously described by the claim. In general, the relationship between the elements of the image forming apparatus, with respect to time is so convoluted, that the claim cannot be understood. Applicant is urged to rewrite claim 11 in its entirety.
